

Altium Designer Set Up Instructions

2023

Preparing for the Workshop

Before the workshop, please ensure you try follow one of the following to gain access to and utilise Altium on your computer. **You will need to bring your laptop to this workshop** The sections have been ordered from easiest to hardest methods of obtaining/using Altium on your system.

Remote Desktop Protocol (Reccomended)

This method is essential if you have a M1 Mac, a low-spec laptop, or have low storage.

1. Follow the instructions provided by UQ EAIT [here](#).
2. Locate Altium on this and open the software

If you cannot open Altium on your login through this method. You may not have been given a licence by UQ. Please attempt the instructions in *Installation Via Altium Education*.

Installation and Connection Via VPN

If you would like to access the software directly on your laptop, follow the instructions provided by UQ EAIT [here](#). Please note **we will not help you install this on the night**.

Installation Via Altium Education

This is the final method of getting Altium on your system. Because it can take some time to verify, if you plan to use this method, please request immediately.

1. Follow [this link](#)
2. Register with your student email sXXXXXXX@student.uq.edu.au
3. Respond to the activation email
4. Download and install Altium Designer
